DETAILED ACTION

EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Monty Whitham on 11/3/04.

The application has been amended as follows:

Claim 49 (amended). A wireless mobile communications method, comprising the steps of:

identifying a starting point and one or more destination locations in a geographic area;

determining at least one route in said geographic area from said starting point to said one or more destination locations along which a wireless mobile communications device can be transported, and where a signal quality along said at least one route meets a threshold value, said determining step utilizing a map which comprises empirically collected information pertaining to wireless communications in at least a portion of said geographic area; and

selecting a route with a best signal quality from amongst a plurality of routes determined in said determining step.

Claim 50 (cancelled).

Claim 51 (same).

Claims 52-54 (cancelled)

Allowable Subject Matter

2. Claims 49, 51 are allowed.

3. The following is an examiner's statement of reasons for allowance:

Regarding claim 49, the Bonta reference discloses a method for determining a signal quality on several routes from a starting point to more destination points in a geographic area for a wireless mobile communication.

The Chang reference discloses a technique for preventing a dropped call to a wireless terminal when a signal quality below a threshold by directing a user of the terminal to move to other direction.

The prior art of record fails to teach the step of selecting a route with a best signal quality from amongst a plurality routes.

Regarding claim 51, this claim is allowed as being dependent upon the independent claim that has been allowed.

Conclusion

4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably
